MANUAL CORE CUTTER

Precise, clean cuts, NO DUST
Simple to use; operator safe
Quick change to various core ID's

SPECIFICATIONS

Standard Machine Length:

M70 – 75" (1900 mm)
M80 – 85" (2160 mm)
M100 – 105" (2670 mm)

Width: 25" (480 mm)

Height: 55" (1400 mm)

Weight (approximate depending on model): 500 lbs (265 kg)

Core ID Range: 3" (76 mm) - 6" (150 mm)

Core Wall Thickness: 0.08" (2 mm) - 0.5" (12 mm)

Core Insertion Length:

M70 – 70" (1775 mm)
M80 – 80" (2030 mm)
M100 – 100" (2540 mm)

FEATURES

- Two-handed operation keeps operator's hands away from blade during cutting
- Motor won't turn on until blade is in contact with the core
- Nylon anvils prolong blade life
- Measuring bar core stop for repeatable cuts
- Core is driven through rollers for improved safety and better cut quality
- Heavy duty steel construction and 1hp motor for durability
- Adjustable cut depth
- Suitable for cardboard and soft plastic cores
